### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Status of Claims***

1. Claims 22-48 are currently under examination, wherein no claim has been amended in applicant's amendment filed on November 17, 2009.

### ***Status of Previous Rejections***

2. All the previous rejections of claims 22-48 under 35 U.S.C. 103(a) as stated in the Office action dated August 19, 2009 are maintained as follows.

### ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 22-48 are rejected under 35 U.S.C. 103(a) as being unpatentable over Shekhter et al. (US 6,558,447 B1) as stated in the Office action dated August 19, 2009.

### ***Response to Arguments***

4. The applicant's arguments filed on November 17, 2009 have been fully considered but they are not persuasive.

The applicant argues that the oxides of Shekhter et al. ('447 B1) are reduced with magnesium in gaseous form while the reducing metal of the instant invention does not react in gaseous form; thus the rejections can only be based on hindsight, using applicant's specification as a guide. In response, the examiner notes that there is no limitation of the form of the reducing agent recited in the instant claims. Shekhter et al.

Art Unit: 1793

('447 B1) discloses all the instantly claimed limitations. The grounds of rejections as discussed in the Office action dated August 19, 2009 relied only on the knowledge disclosed in the prior art reference, which was within the level of one of ordinary skill in the art at the time the invention was made and did not include knowledge gleaned only from applicant's disclosure. Therefore, the rejections are proper and maintained.

### ***Conclusion***

5. **HIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
